WestWind Church

The Christian Church (Disciples of Christ)

Would you like to save money and grow your own organic produce?

*Would you like to share your gardening expertise **or** would you like to learn how to garden?*

Would you like to help needy people in your community?

Would you like to meet other people interested in gardening?

Our Community Garden offers the opportunity to achieve all of this and more!

Who we are: WestWind Church Community Garden. We welcome anyone who wants to adopt a garden plot and have the challenges and ultimate satisfaction of raising your own ripe, organic produce. We have gardeners of all ages and levels of experience, including the kindergarten classes at the neighboring school who adopted a 4'x16' plot to experience gardening. Elevated beds are available for those with limited physical abilities. Like us on Facebook!

What we do: Provide raised garden beds ready for planting to new and returning gardeners. We donate approximately half of our produce to the food bank and underserved people in our area. We schedule monthly work days to turn the compost, maintain garden area, and for social interaction and education. Water is provided for garden beds; mulch, compost and soil amendments provided as available.

Where are we: Adjacent to WestWind Church and Shady Grove Elementary School at 1300 Sarah Brooks Drive, Keller, TX. This is a peaceful place to commune with nature and nurture the earth. There are currently over 20 garden plots. The garden is blessed with abundant sunshine and there is also a lovely grove of shade trees toward the back of property for relief from the sun. Church parking lot and playground are right next to the garden.

Why: WestWind Church began our community garden in 2011 as a way to utilize our beautiful property to: 1. Encourage community spirit and interaction through a garden. 2. Address hunger needs of the disadvantaged people in our community by growing and donating part of our healthy, fresh fruit and vegetable harvests. 3. Be good neighbors – providing a welcoming and inclusive place and the opportunity to educate youth through adults of the many benefits of gardening.

When: You may tend your garden plot on your own schedule. We strongly encourage year-around planting and maintenance of your garden bed. Join the garden anytime for a prorated fee. General sign-up and renewal every January. Contact the garden team now to request a plot! Review garden contract at: www.Westwind-Church.org/Community_Garden.html.
